PROFESSIONAL SUMMARY

Product Owner with 4+ years of experience delivering enterprise healthcare technology that improves patient access, engagement, and operational efficiency across 350+ healthcare locations. Proven success defining product strategy, developing roadmaps, and leading Agile delivery of HIPAA-compliant patient engagement solutions, including patient portals, online scheduling, CRM, customer data platforms, and omnichannel communications.

CORE COMPETENCIES

Product Strategy • Product Roadmaps • Product Discovery • Agile Scrum • Backlog Prioritization • HIPAA Stakeholder Management • User Stories • Acceptance Criteria • Customer Journey Mapping • Product Analytics • API Integrations • Healthcare Technology • Patient Engagement • Digital Transformation

PROFESSIONAL EXPERIENCE

Product Owner – Patient Engagement Platforms

EyeCare Partners, Saint Louis, MO | August 2023 – Present

Own the product strategy, roadmap, and Agile delivery for enterprise patient engagement platforms supporting more than 350 optometry locations nationwide.

- Redesigned the online scheduling experience, increasing conversions by 16% through simplified booking workflows, household scheduling, and intelligent appointment recommendations.
- Led delivery of a Salesforce CRM integration that enabled personalized patient communications and marketing automation, increasing patient engagement and reactivation by 26%.
- Owned the launch of an enterprise digital eCheck-In solution, reducing patient check-in time by 80% while improving operational efficiency and front-office workflows.
- Defined and delivered conversational SMS scheduling capabilities, reducing contact center call volume by 18% through automated confirmation, cancellation, and rescheduling workflows.
- Implemented automated waitlist and gap-fill messaging, increasing appointment utilization by 12% and reducing revenue loss from canceled appointments.

Customer Relationship Manager – Healthcare Marketing Technology

EyeCare Partners, Saint Louis, MO | August 2022 – August 2023

Managed enterprise CRM strategy and marketing technology supporting patient engagement across a multi-brand healthcare organization.

- Led Cordial marketing automation implementation, establishing enterprise patient communications and customer data strategy supporting future personalization and Twilio Segment CDP adoption.
- Designed personalized patient journeys, increasing engagement 18% through automated communications, behavioral triggers, and targeted messaging.
- Implemented automated appointment reminders and confirmations, improving confirmation rates 26% while reducing manual outreach.
- Developed audience segmentation across 350+ locations, enabling targeted communications using demographics, appointment history, and engagement data.
- Partnered with Product, Marketing, Analytics, and Operations to optimize communications using customer insights and performance data.

Marketing Project Manager – Digital Health Initiatives

EyeCare Partners, Saint Louis, MO | January 2022 – July 2022

- Led implementation of Sprinklr CX platform across 55+ healthcare brands, improving enterprise customer experience management.
- Implemented Yext digital presence management, improving patient access and local search visibility across 500+ offices.
- Supported digital patient journey improvements contributing to a 10% increase in elective cataract procedure conversion.

Marketing Manager - Digital Transformations

The Eye Institute of West Florida, Largo, FL | April 2017 – August 2022

- Led implementation of enterprise online scheduling platform, creating first self-service booking experience accounting for 13% of scheduled appointments.
- Implemented patient engagement platform with automated reminders and confirmations, reducing no-shows 3.5% and improving communication workflows.
- Directed third-party CRM integration, centralizing lead management and patient communications while increasing lead conversion 3x.
- Led reputation management platform deployment, automating review requests and increasing positive reviews 10x to strengthen patient acquisition.
- Developed Google Ads campaigns targeting cataract prospects, increasing paid search ROI 28% through segmentation, optimization, and analytics.

Earlier Experience

Additional leadership experience in marketing, operations, CRM implementation, customer engagement, and business growth with progressive responsibility for digital transformation and technology initiatives.

FEATURED PROJECTS

- Launched enterprise patient portal, doubling patient adoption compared to the legacy solution while reducing administrative workload and improving digital self-service.
- Delivered a customized Contact Center UI built on Twilio Flex, enabling agents to support patients through 1:1 SMS conversations while giving admins the ability to send broadcast bulk messages.
- Led implementation of Twilio Segment CDP, creating unified patient profiles that enabled personalized omnichannel communications across SMS, email, and digital channels.
- Built an AI-assisted daily puzzle platform using Claude Code, featuring automated puzzle generation, rules-based validation, scheduled releases, and GitHub PR approval workflows.
